

Meridian Behavioral Healthcare

Meridian Behavioral Healthcare is a multidisciplinary system of care that specializes in the treatment of individuals challenged by mental health and substance use disorders. We've been in existence for more than 50 years. At Meridian, we firmly believe that every person has an inherent capacity for growth and resilience, regardless of the challenges they face.

Our treatment programs combine evidence-based practices with innovative therapeutic approaches, ensuring a comprehensive and individualized care plan. We offer a range of services, including psychotherapy, medication management, group therapy, wellness activities, and educational workshops. We empower individuals to actively participate in their recovery journey, reclaiming their lives and building a solid foundation for a hopeful future.
